

## Key Features

Safety barrier designed to protect pharmacy staff and customers from exposure to airborne viruses and diseases

No assembly required

Clear, protective, unbreakable polycarb

## Description

The Cashier Barrier is a safety barrier designed to protect both pharmacy staff and customers from exposure to airborne viruses and infectious diseases. The Cashier Barrier requires no assembly. The clear polycarb panel

serves as the barrier between pharmacy staff and customers.

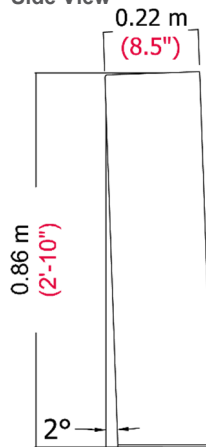

The barriers can be slightly modified in size and only require a mild glass cleaner and microfiber towel to clean.
