

Key Features

- Safety barrier designed to separate staff and patrons
- Minimal assembly required
- Clear polycarb

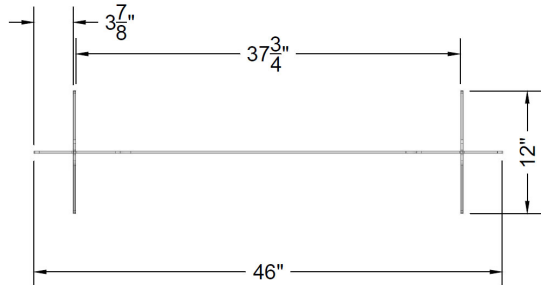

Description

The Polling Screens are safety barriers designed to separate staff and patrons. The screens can be used in a variety of settings, such as polling centers. The clear, 1/4"

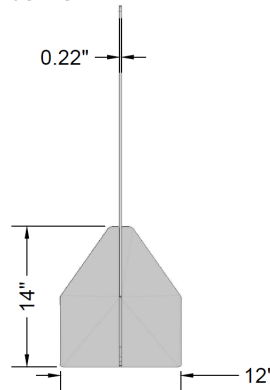

thick polycarb panel serves as the barrier and two polycarb feet insert into the panel to provide support and stability. The barriers require only a mild glass cleaner and microfiber towel to clean.
